

## Synthesis chemist organic chemistry - B.Sc. or M.Sc. -

HPC Standards GmbH is a globally operating and constantly growing company based in Cunnersdorf near Leipzig. Our main field of activity is the production of high-purity reference substances for residue analysis.

To expand our synthesis department for the production of native and isotope-labeled reference substances, we are looking for a **synthetic chemist** to start as soon as possible.

### Your tasks:

- Independent planning and execution of organic syntheses
- Purification of products by crystallization, chromatography and distillation
- Identity and purity determination using HPLC, LC-/GC-MS and NMR spectroscopy
- Evaluation and documentation of the results

### Your requirements:

- Completed degree in chemistry (B.Sc. or M.Sc., without doctorate) or comparable qualification with a focus on organic synthesis chemistry
- Careful, clean and structured way of working as well as reliability paired with team and communication skills
- Several years of professional experience in organic synthesis chemistry is a plus

**What you can expect:**

- a challenging position with changing projects covering a broad spectrum of organic synthesis chemistry
- a young, international team with flat hierarchies in a modern and secure workplace
- flexible working hours
- company pension scheme
- annual company events
- regular further training
- job bike

Have we piqued your interest? Then send us your complete application documents by e-mail, stating your salary expectations and your earliest possible starting date, to [hr@hpc-standards.com](mailto:hr@hpc-standards.com).
